Khushboo Gujarat Ki

The sand is exactly as white as shown in this picture.
The ocean of white sand stands out stark and pristine in its
colourlessness, interrupted only by passing herds of camels.
On moonlit nights, the desert reveals another colour.
Something that can hardly be described in words.

Which colour of Kutch will catch your eye?
Maybe one that I couldn't find!

Tripura is a landlocked hilly State in north-eastern India with altitudes varying from 15 to 940 meter above sea level, though the majority of the population lives in the plains. Tripura has a tropical climate and receives rainfall during the monsoons. It is surrounded on the north, west, and south by Bangladesh and is accessible to the rest of India through the Karimganj district of Assam and Mamit District of Mizoram in the east. The state extends between 22°56’N and 24°32’N and 90°09’E and 92°10’E. Its maximum stretch measures about 184 km from north to south and 113 km from east to west with an area of 10,491.69 sq.km

Within its small geographical area, Tripura offers
