It is delightful to know that Travel & Tourism Fair (TTF) is going to organize a series of Travel & Trade Fairs at the Metro Cities of India.

Tourism is the field having the maximum potential to provide coming opportunities to the local residents for being self-sustained. However, more efforts are required to push this tourism industry to exploit its potential to the fullest. Gujarat is also the way of progress in the development of domestic tourism by putting up sincere efforts. The domestic tourism is truely the backbone of the tourism industry as it is provides the support in times of global economic crisis.

The endeavour of organizing travel & tourism fairs will definitely provide the good platform to the stake holders for marketing, awareness and knowledge sharing. It will help to boost the tourism industry across the country.

I extend my congratulation for this organizations of TTF and my best wishes for the publication of the souvenir on the occasion.

MESSAGE

Travel and Tourism Fair (TTF) under the auspices of Ministry of Tourism, GOI, New Delhi is going to organize TTF-2012 series covering 6 major tourist generating markets in prominent cities of India. The travel & tourism industry provides an annual opportunity for organisations from India and abroad to showcase their products and services to a large cross-section of the travel trade and consumers across major markets in India.

Domestic tourism is the backbone of the Indian tourism industry as it provides sustenance and growth to the industry around the year especially at times when inbound tourism is affected by global economic crises and other socio-economic factors.

The organizing Committee deserves all appreciation for bringing out Souvenir. I congratulate the organization for their efforts in organizing such programmes, and hope that it will be a grand success.

MESSAGE

We are proud of our cultural heritage, natural piety and scenic beauty. From north to south and east to west, our incredible India is full of tourism attractions. Now a day tourism has an emerging share of all inclusive employment scope, particularly, domestic tourism is the backbone of Indian tourism which provides privileges for growth. We have to think of affordable tourism, economic tourism and community tourism. Our socio economic factors are based on the economy of common mass. So, we cannot be effected by and economic crisis easily. Our religious pilgrimage are it's example. So, it is the thrust of time to visualize the need of common mass.

I hope, TTF will think over it and come with a vision and road map to provide ample amenities in this regards to their travelers

Thanks for publication of Souvenir.

MESSAGE

I am glad to know about the upcoming Travel & Tourism Fair (TTF) at Ahmedabad and Surat in the month of August.

Domestic tourism is the backbone of the Indian Tourism Industry and it becomes even more important in times of global economic crisis. Gujarat puts tremendous emphasis on the domestic tourism and is making every effort to attract tourist from all over India to the Vibrant Gujarat.

Tourism is the field having the maximum potential to provide opportunities to the residents for being self-sustained. However, more efforts are required to push this tourism industry to exploit its potential to the fullest.

Travel & Tourism Fair will provide an opportunity to all the stake holders to network, share knowledge, and explore new business opportunity. I am sure it will help to boost the tourism industry across the country.

I extend my congratulation to the organizers of TTF and my best wishes for the publication of the souvenir on the occasion.

I am very happy to know that the Travel & Tourism Fair (TTF), India's largest network of travel fairs, is being organised in the six major tourism markets of Kolkata, Hyderabad, Ahmedabad, Surat, Mumbai and Pune with participants from all over India and abroad. I am also happy to learn that a commemorative souvenir is also being brought out on this occasion.

God's own country, Kerala has caught the imagination of the national as well as the international traveller as never before. Kerala's natural bounties, its art and culture, crafts, food and traditional treatment and rejuvenations practices have become unique tourism proposition to attract different target groups around the world.

Now, that the tourism Industry is consolidating after a period of global economic challenges, the importance of platforms like TTF is reinforced.

I convey my best wishes for the success of the endeavours as well as for the publications of the souvenir on this occasion.

PRODUCTS & SERVICES - The “REGIONAL ECONOMIC DEVELOPMENT PROGRAMME in Uttarakhand” is an initiative of the Federal Republic of Germany in promoting Indo-German economic cooperation by assisting a relatively backward region in India to bridge the existing economic divide between “the hills and the plains” by complementing and supporting ongoing development efforts. The RED Programme envisages a steady flow of technical assistance from the German side which is intended to complement the Government of India’s reform policies geared towards a more inclusive growth and reducing poverty by generating income and employment, particularly for the rural and marginal groups in Uttarakhand.
The Programme is anchored in the Department of Rural Development of the GOI in cooperation with Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH.
